Hyland Software Solutions Available through the Texas Department of Information Resources

Hyland's enterprise content management and content services platforms are now available through the Texas Department of Information Resources (TX DIR) contract DIR-CPO-6072.

Product and Service Specifications

Under DIR Contract DIR-CPO-6072, Hyland offers enterprise content management software, enterprise content management software as a service, professional services and training classes. Hyland's software provides government solutions and services to manage content, processes and cases. These solutions are used at all government levels to eliminate paper, automate processes, capture data, manage records and develop content-enabled case management applications.
